

# PROJECT PLANNER / SCHEDULER Curriculum Vitae

*Planning, Scheduling and impact/risk analysis is what I do. I want to focus all my energy to work with companies and their project teams to be better at scheduling and project controls to meet or exceed project goals and increase profits by doing the process right.*

- I am a registered Professional Engineer
- I served as a structural and mechanical engineer for over 18 years
- I have been a PM for engineers, owners, equipment suppliers, consulting firms & GCs
- I have over 50 years of scheduling, risk mgmt. and project controls Project Management and Engineering
- I am a member of PMI and AACE
- I was a construction arbitrator for AAA for 30+ years
- Many years as a claims consultant & testifying Expert Witness
- I have managed pm, engineers & and construction teams
- Am a public speaker and an adult instructor
- I have done work in the industrial, commercial, power, oil & gas, hotel & pharmaceutical industries
- I have implemented Primavera and Oracle software for many years as a partner and for other partners

*It is my opinion that the process of project scheduling is both art (having lived the processes) and science (knowing the process and the software), it is the perfect blend.*

*Schedules, above all else, are a form of succinct and timely communication. Having a schedule and really using/understanding that schedule can be a world apart. Your schedule should be an important construction tool that is fully-utilized.*

*Having worked for and consulted to companies in different roles various industry projects, I believe that coordination between those companies at all levels can make a project successful or make them fail.*

*I am also a fervent believer in consistent and excellent contemporaneous field and office documentation that is fully-integrated with the schedule updates.*

*I get great enjoyment from the success of those I help and train. Imparting knowledge is a great satisfaction.*

## SALIENT SOFTWARE

*Primavera P3, ST, Risk, Contract Management, P3e thru P6, Acumen Fuse, Asta Powerproject, Phoenix Project Manager, Spider Project Manager, MS Office, Adobe Graphics & Design software, HTML & Java authoring software, SmartDraw, Visio, SQL Databases, and much more.*
